

## COMPANY INTRODUCTION

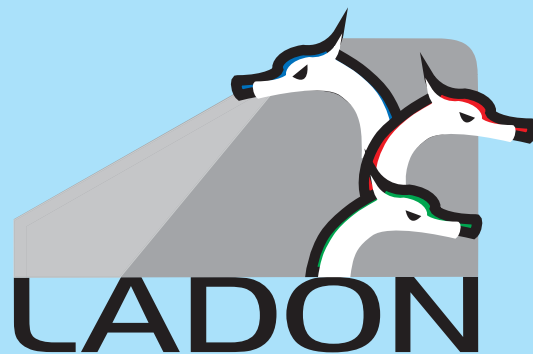

**LADON** CLEARLY DIFFERENT

## Who Are LADON SYSTEMS?

---

From Greek Mythology, Ladon was a multi headed Dragon that guarded the Golden Apples in the Garden of Hesperides.

Today LADON SYSTEMS bring to the security industry an alternative supplier that listens to their customers and as a result offer a professional service that recognises and meets the rapidly changing requirements of the CCTV market.

LADON SYSTEMS offer a range of quality products and software that is easy to specify, easy to install and easy to use. We also offer you an innovative selection of sales material that will make it easy for you and your customers to choose the right products every time.

With products that are tested before despatch and carefully qualified you are assured of a painless and worry free experience when you specify, install and operate LADON SYSTEMS products.

At LADON SYSTEMS we care about our customers and focus on what is important, resulting in the fastest growing and best overall value for money offering of quality product, sales and technical support available in the CCTV market today.

Join with LADON, *See* the difference and *Watch* your business grow.
